

NEW YORK MEDICAL COLLEGE

VALHALLA, NEW YORK 10595 TEL 914-594-4900 FAX 914-594-4145

January 12, 2011

RALPH A. O'CONNELL, M.D.
PROVOST AND DEAN, SCHOOL OF MEDICINE

Dear Colleagues:

Welcome to New York Medical College's *Author Recognition Celebration*. This time last year we celebrated the College's Sesquicentennial; this year we are 151 years old and still celebrating our tradition of faculty authors. When the College was founded in 1860 its original home was the upper three floors of a building on the northwest corner of 20th Street and Third Avenue, over a grocery store. There were three lecture rooms and the dissection room was on the upper floor. Wershub's history of the College doesn't mention a library but, as the first prospectus listed only six members of the faculty, one of whom, Jacob Beakley, MD, was dean as well as professor of surgery, and 59 students, the library didn't need to be very large. Today's library is large, modern and connected to the world-wide-web. Diana Cunningham, M.L.S., Associate Dean and Director of the Health Sciences Library and the library staff (Cheryl Silver, Nina Kurzban, Michael Modugno, M. Afsar Mohiuddin and Marie Ascher) have continued a wonderful academic tradition of welcoming in the New Year. Fine sherry warms up a winter evening.

I want you to note the smiles on faculty faces as they accept their awards. Oliver Wendell Holmes, American physician and author, professor of anatomy and physiology at Harvard when New York Medical College was founded, wrote in *The Autocrat of the Breakfast Table*: "I never saw an author in my life – saving perhaps one – that did not purr as audibly as a full-grown domestic cat ... on having his fur smoothed in the right way by a skillful hand."

This 17th *Author Recognition Celebration* gives us a chance to stroke our fellow faculty members. They deserve the recognition and we enjoy their purring. Let's raise a glass to all 429 members of the faculty who have published 947 books, chapters, journal articles, editorials, reviews and letters over the past academic year. You bring distinction to yourselves and to New York Medical College. Keep it up and follow Ben Franklin's advice:

*If you would not be forgotten
As soon as you are dead and rotten,
Either write things worth reading,
Or do things worth the writing.*

Sincerely,

Ralph A. O'Connell, M.D.

FACULTY AUTHORS' BIBLIOGRAPHY

July 2009 - June 2010

The 2009/2010 compilation of New York Medical College (NYMC) faculty scholarship is the seventeenth edition. Our goal is to celebrate the contributions of faculty from the previous academic year: July 2009 through June 2010. Since September 1993, the recent scholarship of the NYMC faculty has been celebrated at the annual Author Recognition Celebration, which we call a *sherry*. The Provost and Dean co-sponsors these efforts and has from the very beginning.

This bibliography is available both in print and online: <http://library.nymc.edu/bibliog/>. Previous editions are available online and searchable across years by author, descriptor or journal with full text links using *Article Linker*.

Every effort is made to be as comprehensive as possible. The database begins with letters and submission forms sent to *all* NYMC faculty from *all* schools: School of Medicine, School of Basic Medical Sciences, and School of Health Sciences and Practice. The letter is also sent to department heads, program directors, course coordinators, and the deans. An email reminder follows. In addition, standard bibliographic sources (see below) are searched and references found are added to the database. Thirty percent requires manual entry.

To model best practices, each citation is verified against a copy of the publication. Annually, a number of web-based citations are submitted; they are documented *as of the date viewed* per current standards. Copies of books and articles are obtained from the author, our collection, or through interlibrary loan. For inclusion, all authors should cite NYMC *and be published between July 1, 2009 and June 30, 2010*. Overall, 953 sources are included representing the publishing efforts of 429 faculty authors. Congratulations to all authors!

Journals, Journal Articles, Editorials, Reviews, and Letters

Citations are as complete as possible. The following sources were searched: PubMed, Web of Science, Scopus, CINAHL, PsycINFO, LEXIS-NEXIS, Biomedical Reference Collection, Nursing and Allied Health Collection, Health Wellness Resource Center, Psychology and Behavioral Sciences Collection, and websites. The search methodology combines the designated field containing the author affiliation address with the publication year and publication type. In some databases (e.g. PubMed), only the address of the *first* author may be included. This is an inherent limitation when searching the institutional field.

Books and Chapters of Books

The selection of books and chapters of books is made through library acquisition lists and author submissions. For the most part, books and chapters of books are not readily available in electronic databases. Authors are encouraged to alert the library about newly published books and chapters.

Arrangement

The arrangement of the print bibliography is in two parts: by author and by academic department. The first part lists citations alphabetized by first author. Each College author who is not a first author is cross-referenced to the first author and citation. The second part

lists NYMC authors by departments and/or schools. Citations are formatted in accordance with the National Library of Medicine style.

This bibliography was compiled and edited by Cheryl Silver, Associate Director, Resources Management Division. Nina Kurzban, Librarian, and Michael Modugno, Library Assistant, provided invaluable support in the production of this bibliography. Photos of the current and previous celebrations are also available on the library's webpage.

As director of the Health Sciences Library I congratulate our NYMC authors. I thank the staff for producing this compilation, and I sincerely thank the President, Provost and Dean, department chairs, and library staff. Kudos to everyone!

Very sincerely,

Diana J. Cunningham, MLS, MPH, AHIP,
Associate Dean and Director
