**New York Medical College  
Faculty Bibliography**

*January 1994 through June 1994*

**Prepared by  
Luiza Balthazar, MLS, AHIP  
Medical Sciences Library**

## TABLE OF CONTENTS

<b>Introduction</b>	<b>p. 4</b>
<b>Journal citations</b>	<b>p. 5</b>
<b>Books/chapters of books</b>	<b>p. 19</b>

## INTRODUCTION

The NYMC Faculty Bibliography is planned as an annual compilation by academic year published both in print and electronic formats. The electronic version is available on the Library & Database Services menu of the NYMC WordPerfect Office Shell.

Only journal articles and books or chapters of books are included. Other publications may be added later (e.g. patents, technical reports, media, etc.).

### Sources

**A.** Journal articles. An effort was made to present a comprehensive bibliography by searching the following databases: Science Citation Index, MEDLINE, HealthPLAN, and PsycLIT.

The search methodology used combined the fields containing the authors' affiliation addresses with the publication years and types of publications.

S1 = New York Medical College in AD (affiliation address)

S2 = 1 and 1994 in PY (publication year)

S3 = 2 and article

**B.** The selection of books or chapters of books was made through the library acquisition list. For the most part, books or chapters of books are not as readily identifiable in available electronic databases. Therefore, authors are continually encouraged to alert the library of their new publications.

### Arrangement

Arrangement of the bibliography is in two parts. Part I contains journal articles; Part II contains books or chapters of books. NYMC authors' names are in bold-face type. Each NYMC author who is not a first author is cross-referenced (*see* reference) and the full citation appears under the first author. Citations are formatted according to the rules for Index Medicus.

### Remarks

Every possible attempt has been made to include all NYMC authors who have published during the Jan-June 1994 period. All cited authors were verified in the October 1994 NYMC Faculty Listing provided by the Dean's Office in the NYMC School of Medicine. All authors who were affiliated with the NYMC at the time their articles were submitted have been included. Authors who did not cite their NYMC affiliation in their published work could not be identified.

A citation limitation must be noted in that some databases (such as MEDLINE for example), only include the address of the first author. There is, therefore, an inherent limitation when trying to identify additional institutional authors in some databases.

Users may send comments and suggestions to Luiza Balthazar. Phone: 993-4330. E-mail:Luiza
