RALPH A. O'CONNELL, M.D.
PROVOST AND DEAN, SCHOOL OF MEDICINE

January 20, 2009

Dear Colleagues:

Welcome to the Fifteenth Annual Author Recognition Celebration. Thanks to Diana J. Cunningham, M.L.S., Associate Dean and Director of the Health Sciences Library, and her staff this has become a very welcome tradition to welcome in the New Year. The fine sherry always warms up a winter evening.

It is good to see the smiles on the faculty faces as they accept their awards. Oliver Wendell Holmes (1847-1882), the American physician and author, was professor of anatomy and physiology at Harvard and the father of Oliver Wendell Holmes, Jr., the famous associate justice of the U.S. Supreme Court. Professor Holmes realized that authors like to be stroked. In *The Autocrat of the Breakfast Table* he wrote: "I never saw an author in my life – saving perhaps one – that did not purr as audibly as a full-grown domestic cat ... on having his fur smoothed in the right way by a skillful hand."

This Author Recognition Celebration is our chance to stroke our fellow faculty members. They deserve the recognition and we enjoy their purring. Let's raise a glass to all 469 members of the faculty who have published 1018 books, chapters, journal articles, editorials, reviews and letters over the past academic year. You bring distinction to yourselves and to New York Medical College. Keep it up and follow Ben Franklin's advice:

*If you would not be forgotten
As soon as you are dead and rotten,
Either write things worth reading,
Or do things worth the writing.*

Sincerely,

Ralph A. O'Connell, M.D.

FACULTY AUTHORS' BIBLIOGRAPHY

July 2007 - June 2008

The 2007/08 compilation of New York Medical College (NYMC) faculty scholarship is the fifteenth edition of what is now an annual tradition. Our goal is to celebrate the contributions of faculty from the previous academic year. The staff of the Health Sciences Library produces this bibliography which is available in print and electronic form <http://library.nymc.edu/bibliog/>. RSS feeds from Scopus alerts users as to newly published NYMC citations.

Since September 1993, this bibliography of faculty scholarship is celebrated at an annual Author Recognition Celebration. From the beginning, the Dean and Provost co-sponsor the event with the Library, which we term a *sherry*.

Every effort is made to be as comprehensive as possible. The database begins with letters and submission forms sent to all 3000+ NYMC faculty from all three schools: School of Medicine, School of Basic Medical Sciences, and School of Public Health. Submissions may also be done online. Lists of faculty members are as of April 29, 2008. The letter is also sent to department heads, program directors, course coordinators, and the deans of the respective schools. An email reminder follows. In addition, standard bibliographic sources (see below) are searched and added to the database. Remarkably, only twenty percent is duplication. Thirty percent requires manual entry.

To meet model standards of documentation, each citation is verified against a copy of the publication. Annually, a number of web-based citations are submitted; they are documented as of *the date viewed* per current standards. Copies of books and articles are obtained from the author, our collection, or through interlibrary loan. For inclusion, all authors should cite NYMC *and be published between July 1, 2007 and June 30, 2008*. Overall, 1018 sources are included representing the publishing efforts of 469 faculty authors. Congratulations to each and every author.

Journals, Journal Articles, Editorials, Reviews, and Letters

Citations are as complete as possible. The following sources were searched: PubMed, Web of Science, Scopus, CINAHL, PsycINFO, LEXIS-NEXIS, Biomedical Reference Collection, Nursing and Allied Health Collection, Health Reference Center, Psychology and Behavioral Sciences, Biological Abstracts and websites. The search methodology combines the designated field containing the author affiliation address with the publication year and publication type. In some databases (e.g. PubMed), only the address of the *first* author may be included. This is an inherent limitation when searching the institutional field.

Books and Chapters of Books

The selection of books and chapters of books is made through library acquisition lists and author submissions. For the most part, books and chapters of books are not readily available in electronic databases. Authors are encouraged to alert the library about newly published books and chapters.

Arrangement

The arrangement of the bibliography is in two parts: by author and by academic department. The first part lists bibliographic citations alphabetized by first author. Each College author who is not a first author is cross-referenced to the first author and citation. The second part lists NYMC authors by departments and/or schools. Citations are formatted in accordance with the National Library of Medicine style, which conforms to American National Standard for Bibliographic References ANSI Z39.29-1977.

This bibliography was compiled and edited by Cheryl Silver, Assistant Professor, Assistant Director of Information Processing. Nina Kurzban, Librarian, and Michael Modugno, Library Assistant, provided invaluable support in the production of this bibliography.

The Health Sciences Library is pleased to acknowledge and promote the scholarly contributions of our faculty. The staff is also pleased to receive the continued support of the President, Provost, Deans, Department Chairs, and most importantly, our publishing faculty.

Once again, kudos!

A handwritten signature in black ink, reading "Diana J. Cunningham". The signature is fluid and cursive, with the first name "Diana" being more prominent.
