EDWARD C. HALPERIN, M.D., M.A.
CHANCELLOR AND CEO

July 29th, 2015

Dear Colleagues.

New York Medical College is a community of scholars that exists for the generation, conservation, and dissemination of knowledge regarding the causes, prevention, and treatment of human disease and disability. There are many forces at work in society which seek to place other missions upon our agenda economic development, job creation, real estate development, social reform, and political involvement. While, to some extent, we are of necessity engaged in these activities it should not divert us from what we truly are: a community of scholars. Clear evidence of fulfilling our mission is the publication of knowledge in peer reviewed biomedical scientific journals and books. Discovery science is incomplete unless the information which is generated is communicated to others. At our annual recognition event, we celebrate this effort and our mission.

We celebrate, at the author recognition event, the transgenerational nature of our efforts. We seek, through publication, to communicate our findings to others and ultimately to make healthcare better for our grandchildren than it is for us.

This surely must be sacred work in the secular lives of humans.

Sincerely,

Edward C. Halperin, M.D., M.A.

LILLIAN HETRICK HUBER ENDOWED DIRECTOR

August 4, 2015

The Health Sciences Library is pleased to present the 22nd edition of the *Faculty Author Bibliography*, recognizing faculty publications from calendar year 2014. This year New York Medical College will celebrate its authors on August 5 in the Basic Sciences Building. I welcome all NYMC and Touro researchers to join us. The event recognizes our faculty members' research and publication and provides a venue for faculty to discuss our work and perhaps build new relationships across institutions. We have much to be proud of.

In 2014 New York Medical College had 388 published faculty members, including 498 journal articles, 10 books, 53 book chapters, and more. The NYMC strategic plan calls for "actively fostering a culture that promotes and supports research as part of the academic mission of all academic units and departments" including a call to "prioritize initiatives to enhance NYMC's research footprint." What leaves a better and more lasting footprint than the publications that emerge from our research endeavors?

Congratulations to all of the authors and thank you for making this publication and the Touro-wide bibliography something we as an institution can be proud of. Thank you for continuing to tell us of your publications. Special thanks are due to Nina Kurzban who stepped forward and completed the sizable New York Medical College portion of the bibliography near-singlehandedly. I also thank Library Assistant Terri-Ann Chinsee for stepping in to keep us on schedule. Your hard work and enthusiastic dedication is appreciated.

The separate NYMC version of the bibliography will be maintained as an online-only version of the bibliography. The Touro bibliography including all NYMC publications is available in print and online at <http://facpubs.tourolib.org/> The NYMC *Faculty Author Bibliography* and event archives can be located at <http://guides.library.nymc.edu/facultybib>

It is my pleasure to be part of a this faculty and to present this bibliography.

Marie T. Ascher
Lillian Hetrick Huber Endowed Director
Health Sciences Library
