NEW YORK MEDICAL COLLEGE

A MEMBER OF THE Touro College and University System

FACULTY AUTHORS' BIBLIOGRAPHY

JANUARY - DECEMBER 2018

*Compiled and edited by
Nina Kurzban, M.L.S*

with support from

*Marie Ascher, M.S., AHIP
Lillian Hetrick Huber Endowed Director
Health Sciences Library*

Twenty-Sixth Edition

*Valhalla, New York
2019*

Note from the NYMC Library

Congratulations to all 2018 Touro and New York Medical College authors for your hard work in seeing your research through to publication and many thanks to the staff of the libraries of NYMC and the Touro College and University System who collaborate to organize this publication and the Touro Scholar institutional repository. I'd like to specifically thank Nina Kurzban, who puts her heart and soul into collecting the information about NYMC publications you see here. And Jovy O'Grady, Scholarly Communications Librarian, who has spearheaded the Touro Scholar effort at NYMC.

Publication citations and abstracts continue to be entered into the Touro Scholar institutional repository. This year we have also added the ability for faculty to self-submit accepted manuscripts into Touro Scholar and make them openly available for use. Open access increases the availability of your work to researchers and other interested readers worldwide, which will mean for you: more readership, more citations, and more value.

Many thanks to Donneer Missouri and Sara Tabaei at Touro Library for their work and to scholarly communications and the Touro Scholar initiative.

As a library we are committed to supporting research at every step of the process and promoting the work of our faculty researchers. Through this publication and through Touro Scholar we achieve this goal.

Marie Ascher

A handwritten signature in black ink, appearing to read 'Marie Ascher', with a long, sweeping horizontal line extending to the right.

- Omura Y+. Frequent waking up for urination &/or painful leg cramp(s) in advanced aged patients during sleep was one of important causes of fall & fracture which are major causes of disability & death. These problems can be reduced by simple change of available pillow from regular position to vertical position which can cover back of both head & part of chest which improve abnormal condition of spine & thymus gland function. Acupunct Electro Ther Res. 2018 Mar. 43(1):1-18.
